Challenges

Challenges in project implementation

Limited Mobility and Access

- Unable to travel from Austria to project site
- Poor or damaged communication networks
- Information gap

Security Risks

- Threats to staff safety (violence, kidnapping, armed attacks)
- Difficulty accessing project sites due to active conflict or military restrictions

Weak or Collapsed Governance

- Absence of functioning local authorities to coordinate with
- Overlapping authorities, conflicting regulations, or a lack of rule of law

Financial and Logistical Constraints

- Increased costs for transportation, security, and logistics
- Difficulty procuring materials locally due to shortages or supply-chain disruptions

Measures taken/strategies employed to address the challenges

Stakeholder engagement

- ✓ Discussions with local authorities/ the ruling party and Rebels
- ✓ Cofinancing from the Uni/creating synergies/EFD

Shifting project research sites

- ✓ Discussions with project partners and with the funding organization

Changing modality of implementing project activities

- ✓ Remote project support and monitoring
- ✓ Remote supervision of PhD students

- ✓ Delivering trainings and courses online
- ✓ Shifting training site and budget re-allocation/EFD contribution- Flexibility
- ✓ Training local graduates

Highlights:

- ✓ Commitment
- ✓ Dedication
- ✓ Strong motivation
- ✓ Never give up
- ✓ Strong communication

Perseverance!
