

# AGRICULTURE IN AFRICA HACKATHON

— take the challenge —

**KICK-OFF EVENT 18. JUNE 2018**  
University of Natural Resources and Life Sciences, Vienna (BOKU)

**appear**

Institute of Surveying, Remote Sensing and  
Land Information (IVFL)

## WHO?

We are looking for students from the fields of agriculture, water management, software design or economics.

Participate in our Agriculture in Africa Hackathon and develop a useful contribution to empower African Agriculture and Land Management.

## WHAT?

The idea of the Hackathon is to develop a useful product for further use. Products can be papers, project proposals or software applications. We don't set borders, but encourage you to be innovative.

**18. 6. 2018 Kickoff-event, BOKU, 5 - 7 p.m.**

**17-21. 9. 2018** Intensive group work and invited lectures:

*African Agriculture: Challenges, Opportunities, and Future Outlook*, Titki Tarassoum

*Land Management, Community Rights, and Rural Development in Mozambique*, Alda Salomao

October – December 2018: Development of products, final presentations and awards.

Register until June 15th: [laura.essl@boku.ac.at](mailto:laura.essl@boku.ac.at)
