## educational cooperation

### with Eastern and South-Eastern Europe in the pre-university sector

- + Promotion of cooperation between educational institutions in Austria and in Eastern and South-Eastern Europe to sustainably support educational reforms in the pre-university sector.
- + Learning from each other between education systems at the interface between developments in education at national level and at EU level.

#### Focus: Vocational Education and Training

#### Example: IMPROVEMENT OF THE QUALITY AND RELE- VANCE OF VET IN BOSNIA AND HERZEGOVINA in the light of the Riga Conclusions – Strategic Document 2021–2030

The promotion of innovative and competitive initial and continuing vocational education and training is the aim of the “Riga conclusions” of the ministries responsible for VET in EU member states and in countries in the EU accession process. Together with representatives of all relevant VET governance institutions and social partners VET development priorities in the light of the Riga conclusions were identified in a national strategic document, approved by the Council of Ministers of Bosnia and Herzegovina in January 2021. The OeAD will

continue to support the policy dialogue on the implementation of VET development priorities.

#### Focus: Quality development in VET

#### Example: Project “EFFECTIVE QUALITY DEVELOPMENT IN VET THROUGH SUCCESSFUL CHANGE MANAGEMENT – Strengthening the leadership competences of school leaders”

Quality development in VET is a development priority in BiH, Serbia and Montenegro. The aim of this regional project is to strengthen the leadership and change management competences of school directors for effective quality development through tailor-made professional development programs. In Serbia over 150 VET school directors will be trained.

# THE OeAD

Agency for Education and Internationalisation

The OeAD advises, supports and connects people and institutions in education, science, research and culture with its future-oriented programmes.

As an agency of the Republic of Austria the OeAD thus contributes to inclusive, equal and high-quality education.

European and international exchange as well as transnational mobility serve as the agency's most important tools.

Internationalisation and the support for transnational cooperation and mobility associated with it are valuable aspects in education, science and research. High-quality education, science and research need an international orientation.
