Educational Cooperation

with Eastern and South-Eastern Europe in the pre-university sector

- Promotion of cooperation between educational institutions in Austria and in Eastern and South-Eastern Europe to sustainably support educational reforms in the pre-university sector.
- Learning from each other between education systems at the interface between developments in education at national level and at EU level.

Focus: Cooperation between schools and business in vocational education and training

Example: REGIONAL PROJECT SCHOOL MEETS BUSINESS (SMB) IN KOSOVO, ALBANIA AND NORTH MACEDONIA

The aim of SMB is to strengthen the competence of VET schools for professional cooperation with the business sector, especially in the organisation of different formats of in-company learning. The focus is on introducing business liaison officers at schools as competent interfaces between schools and businesses. The project is implemented in close cooperation with the ministries responsible for vocational education and training, vocational training agencies, VET schools and companies.

Focus: Quality Development

Example: SUPPORT TO THE IMPLEMENTATION OF THE KOSOVO STRATEGY FOR QUALITY DEVELOPMENT IN PRE-UNIVERSITY EDUCATION

Based on the cooperation with the Kosovar Ministry of Education, Science, Technology and Innovation in the framework of an EU twinning project, the OeAD has continued to support the implementation of the new QA system in pre-university education through capacity building of key stakeholders at Ministry, municipal education directorate and school level.
Transnational cooperation supports institutional capacity development. Stays abroad contribute to personal competence building and strengthen the innovative capacity of institutions and entire education systems.

**APPEAR**

**HERAS+ PhD / PostDoc Scholarships**

OeAD-GmbH on behalf of the Austrian Development Agency (ADA), co-financed by the Ministry of Education, Science and Technology (MEST) of the Republic of Kosovo within the framework of the HERAS+ project (Higher Education, Research and Applied Science Plus).
The OeAD advises, supports and connects people and institutions in education, science, research and culture with its future-oriented programmes. As an agency of the Republic of Austria the OeAD thus contributes to inclusive, equal and high-quality education.

European and international exchange as well as transnational mobility serve as the agency’s most important tools.

Internationalisation and the support for transnational cooperation and mobility associated with it are valuable aspects in education, science and research. High-quality education, science and research need an international orientation.
