NorTh Macedonia
Focus: Entrepreneurship Learning
Example: REGIONAL PROJECT „ENTREPRENEURSHIP LEARNING“
In order to successfully promote entrepreneurship learning, new approaches to teaching and learning are required. The aim of the project „Entrepreneurship Learning“ was to contribute to improving the quality of entrepreneurship learning in vocational education and training in Albania, Kosovo and North Macedonia. Within the scope of the project 17 multipliers from the three countries have been trained to share new teaching and learning approaches to entrepreneurship learning with over 250 teachers in over 130 VET schools. A multilingual toolkit for entrepreneurship learning has been developed and is available to VET schools in each country.

Focus: Cooperation between schools and business in vocational education and training
Example: REGIONAL PROJECT SCHOOL MEETS BUSINESS (SMB) IN NORTH MACEDONIA, ALBANIA AND KOSOVO
The aim of SMB is to strengthen the competence of VET schools for professional cooperation with the business sector, especially in the organisation of different formats of in-company learning. The focus is on introducing business liaison officers at schools as competent interfaces between schools and businesses. The project is implemented in close cooperation with the ministries responsible for vocational education and training, vocational training agencies, VET schools and companies.

Educational cooperation with Eastern and South-Eastern Europe in the pre-university sector

+ Promotion of cooperation between educational institutions in Austria and in Eastern and South-Eastern Europe to sustainably support educational reforms in the pre-university sector.

+ Learning from each other between education systems at the interface between developments in education at national level and at EU level.
Higher education cooperation and mobility

Transnational cooperation supports institutional capacity development. Stays abroad contribute to personal competence building and strengthen the innovative capacity of institutions and entire education systems.

CEEPUS (Central European Exchange Programme for University Studies)
Student and lecturer exchange with Central and Eastern European countries for academic development.

Scientific & Technological Cooperation (S&T Cooperation)
S&T Cooperation programmes are based on inter-governmental and bilateral agreements. www.oead.at/wtz
The OeAD advises, supports and connects people and institutions in education, science, research and culture with its future-oriented programmes. As an agency of the Republic of Austria the OeAD thus contributes to inclusive, equal and high-quality education.

European and international exchange as well as transnational mobility serve as the agency’s most important tools.

Culture and language

Lectureship programme
The lectureship programme is a mobility programme for teaching German language and Austrian literature and cultural studies at universities abroad.
