## educational cooperation

with Eastern and South-Eastern Europe  
in the pre-university sector

- + Promotion of cooperation between educational institutions in Austria and in Eastern and South-Eastern Europe to sustainably support educational reforms in the pre-university sector.
- + Learning from each other between education systems at the interface of common national development priorities in education.

Focus: Entrepreneurship learning

**Example: ENTREPRENEURSHIP  
LEARNING IN VOCATIONAL  
EDUCATION AND TRAINING**

The aim of the project is to strengthen innovative approaches to entrepreneurship learning at schools and colleges of vocational education and training. Three Austrian and four Russian VET colleges from different sectors (tourism, economics, and technology) piloted innovative approaches of entrepreneurship learning and collected them in an online “method box”. This “method box” together with a teacher training programme is available to all VET schools in St. Petersburg.

Focus: Digital skills

**Example: ACQUIRING BASIC  
DIGITAL SKILLS – NEW  
TEACHING/LEARNING  
SETTINGS**

The aim of this project is to exchange experience in the development of innovative teaching/learning settings for the acquisition of basic digital skills in primary and lower secondary education. Partners will also exchange experience on how to meet teachers’ professional development needs in this field. The project is implemented by the OeAD in cooperation with the Education Committee of St. Petersburg, the Academy of Postgraduate Pedagogical Studies St. Petersburg, the University College of Teacher Education of Upper Austria and the Austrian e-education network.

# THE OeAD

Agency for Education and Internationalisation

The OeAD advises, supports and connects people and institutions in education, science, research and culture with its future-oriented programmes.

As an agency of the Republic of Austria the OeAD thus contributes to inclusive, equal and high-quality education.

European and international exchange as well as transnational mobility serve as the agency's most important tools.

Internationalisation and the support for transnational cooperation and mobility associated with it are valuable aspects in education, science and research. High-quality education, science and research need an international orientation.
