

## Authorities in Austria

The authority in charge of issuance and renewals of residence titles for nationals of third countries and for the issuance of confirmations of registration for nationals of EU/EEA countries and Swiss nationals is the **provincial governor**. He/she can authorise the district administrative authorities to decide in his/her name.

Which **authority will be competent** depends on your **place of residence in Austria** (in the case of application in your home country it will depend on your intended place of residence in Austria).
