Further services and offers

The OeAD's representation in China, strategically integrated within the Austrian Consulate General Shanghai, has built upon its long-standing presence to cultivate an extensive network of partners throughout China.

By further enhancing its expertise in China, it assists Austrian universities and universities of applied sciences in negotiating cooperative opportunities, facilitating the establishment of reciprocal partnerships.

In engaging in nearly all aspects of academic exchange, the office facilitates comprehensive academic exchanges. It also provides guidance to Austrian academic admission offices and coordinates the cooperation with the Academic Evaluation Centres (APS) in China. Additionally, it fosters the development of China-related expertise in Austria through workshops and briefings.

The office regularly hosts webinars and in-person events for Chinese educators to enhance Austria's position in the field of

German as a foreign language within China. Another key objective is to strengthen ties between Austria and its Chinese alumni through networking events.

Furthermore, the office manages delegation visits, organises fairs for Austrian educational institutions at Chinese high schools and universities and organises study trips to China. This allows students from Austria to gain valuable experience and acquire not only specialised knowledge but also intercultural competencies.

WHAT ARE THE KEY ASPECTS of a study trip to China?

Goals

- to foster the Chinese expertise of Austrian students,
- to enable immersive learning experience at top Chinese universities,
- to provide lectures and seminars that align with the study group's specific research interests and academic curricula,
- to offer insight into local business and organisational models through company and organisation visits,
- to allow the students to network with local stakeholders through events and receptions,
- to enrich the academic experience with cultural activities and sightseeing excursions.

Target groups

students from Austrian universities and universities of applied science

Possible locations

Shanghai, Beijing, Hong Kong, other cities in China

[The OeAD Cooperation Office Shanghai is a service platform for higher education institutions, scientists and students who are interested in cooperation, research or study periods in Austria and China.](#)

Fields of study

Almost all academic disciplines are realisable

ECTS

Possibility to conduct on-site exams or presentations in close alignment with the Austrian institution

Estimated costs

Depend on the customised design of the programme

HOW DID PARTICIPANTS RESPOND?

"The OeAD put together an excellent programme that included lectures at Fudan University in Shanghai and at the university in Beijing, as well as company visits, cultural tours, and a leisure programme. They also organised and booked the hotels, buses for excursions, tickets, and restaurants. [...] This positive attitude was also transferred to all the students, making this study trip a complete success."

Programme Director for the law programme study group of the University of Vienna

"I am very thankful for these two weeks. I am quite exited about China right now, especially Hongkong. I might reach out to you later on regarding my master thesis ..."

Master student of the Management Centre Innsbruck

"Thank you once again for the outstanding organisation of the study trip and the extremely warm support!"

Executive MBA student of the University for Continuing Education Krems
