with Eastern and South-Eastern Europe  
in the pre-university sector

Focus: Inclusive education

### Example: I-VET – INCLUSIVE VOCATIONAL EDUCATION AND TRAINING

For over 25 years, Austria has supported the Moldovan Ministry of Education and Research in promoting and establishing Inclusive Education in the Republic of Moldova. The following measures have been taken: organising training programmes for experts, providing organisational support for the National Centre for Psychopedagogic Assistance and its regional branches, and facilitating the development of a legal framework for Inclusive Education. In recent years, the focus of educational cooperation has shifted towards Inclusive Vocational Education and Training (I-VET) to ensure a smooth transition from general to vocational education.

Focus: Vocational education  
and training

### Example: VET-CONNECT – INTRODUCING BUSINESS COORDINATORS FOR VET SCHOOLS IN THE REPUBLIC OF MOLDOVA AND UKRAINE

The development of Vocational Education and Training is a key priority for the Moldovan Ministry of Education and Research within the framework of the EU accession process. The project aims at providing a labour market oriented workforce, fostering economic growth and building networks for the integration into the European education area. The combination of school- and work-based learning in the VET context is of high relevance. The project designs a profile, a training curriculum and guidelines for VET Business Coordinators who will establish a coherent connection between training at school and at the workplace.
