REPUBLIC OF SERBIA

## educational cooperation

with Eastern and South-Eastern Europe  
in the pre-university sector

- + Promotion of cooperation between educational institutions in Austria and in Eastern and South-Eastern Europe to sustainably support educational reforms in the pre-university sector.
- + Learning from each other between education systems at the interface between developments in education at national level and at EU level.

[www.oead.at/educoop](http://www.oead.at/educoop)

Focus: Quality development in vocational education and training

**Example: Project “EFFECTIVE QUALITY DEVELOPMENT IN VET THROUGH SUCCESSFUL CHANGE MANAGEMENT – Strengthening the leadership competences of school leaders”**

Quality development in VET is a development priority in Serbia, Bosnia and Herzegovina and Montenegro. The aim of this regional project is to strengthen the leadership and change management competences of school directors for effective quality development through tailor-made professional development programs. In Serbia over 150 VET school directors will be trained.

Focus: Cooperation between schools and business

**Example: Project “ASSURING THE QUALITY OF IN-COMPANY LEARNING IN SCHOOL-BASED VOCATIONAL EDUCATION AND TRAINING”**

The project supports the Serbian Ministry of Education in developing the quality of in-company training in school-based VET. Based on an analysis of the different formats of WBL in school-based VET the project has supported the development of an internship regulation as a legal framework for improving the quality of internships. The implementation of this regulation will be supported by round tables and trainings for over 150 VET schools.

+ PROMOTION OF COOPERATION BETWEEN SCHOOLS AND THE BUSINESS SECTOR + VOCATIONAL EDUCATION AND TRAINING + QUALITY DEVELOPMENT + EXCHANGE OF EXPERIENCE IN EDUCATION POLICY WITHIN THE FRAMEWORK OF ERISSE

# THE OeAD

Agency for Education and Internationalisation

The OeAD advises, supports and connects people and institutions in education, science, research and culture with its future-oriented programmes.

As an agency of the Republic of Austria the OeAD thus contributes to inclusive, equal and high-quality education.

European and international exchange as well as transnational mobility serve as the agency's most important tools.

Internationalisation and the support for transnational cooperation and mobility associated with it are valuable aspects in education, science and research. High-quality education, science and research need an international orientation.
