educational COOPERATION

**with Eastern and South-Eastern Europe
in the pre-university sector**

- + Promotion of cooperation between educational institutions in Austria and in Eastern and South-Eastern Europe to support educational reforms in the pre-university sector sustainably.
- + Learning from each other between education systems at the interface between developments in education at national level and at EU level.

Focus: Vocational education

Example: VET-CONNECT – INTRODUCING BUSINESS COORDINATORS FOR VET SCHOOLS IN UKRAINE AND THE REPUBLIC OF MOLDOVA

The development of Vocational Education and Training is key priority for the Ukrainian Ministry of Education and Science within the framework of the country's reform agenda, European integration process and reconstruction efforts. By fostering school-business partnerships, the project supports labour market oriented skills development and strengthens economic resilience. The project designs a profile, a training curriculum and guidelines for Business Coordinators, supporting schools in establishing dedicated staff functions for partnership management and cooperation with companies and other stakeholders.

Focus: Psycho-social support

Example: DEVELOPING A CERTIFIED TRAINING PROGRAMME ON SUPERVISION AND INTERVISION FOR SCHOOL PSYCHOLOGISTS IN UKRAINE

Russia's war of aggression has placed a severe psychological and psychosocial burden on children, teachers and education professionals in Ukraine. The project aims at supporting professionals through the development of a certified training programme on supervision and intervision. It develops a training curriculum together with partner institutions in Odesa, Poltava and Zaporizhzhia in order to contribute to the long-term establishment of supervision/ intervision training as part of the professional development framework for school psychologists in Ukraine.

+ QUALITY DEVELOPMENT AND GOVERNANCE + INTRODUCTION OF NEW TEACHING AND LEARNING APPROACHES + DEVELOPMENT OF PRACTICE ORIENTED VOCATIONAL EDUCATION AND TRAINING + PSYCHO-SOCIAL SUPPORT AND INCLUSION IN EDUCATION + SUPPORT FOR EDUCATIONAL NETWORKS

HIGHER EDUCATION COOPERATION AND MOBILITY

Transnational cooperation supports institutional capacity development. Stays abroad contribute to personal competence building and strengthen the innovative capacity of institutions and entire education systems.

Erasmus+

Erasmus+ supports internationalisation and modernisation in higher education as well as intensified academic cooperation through mobility and cooperation projects with partner countries worldwide.

THE OeAD

Austria's Agency for Education and Internationalisation

With its future-oriented programmes, the OeAD advises, supports and connects people and institutions in education, science, research and culture.

As an agency of the Republic of Austria the OeAD thus contributes to inclusive, equal and high-quality education.

European and international exchange as well as transnational mobility serve as the agency's most important tools.

Internationalisation and the support for transnational cooperation and mobility associated with it are valuable aspects in education, science and research. High-quality education, science and research need an international orientation.
