Focus: Quality development

Example: LEADERSHIP AND MANAGEMENT SKILLS FOR QUALITY ASSURANCE AT CLUSTER SCHOOLS

In the course of ongoing educational reforms in Ukraine school autonomy has been expanded and small schools in rural areas have been merged into school clusters in order to support quality education for pupils in rural regions of Ukraine. The project aims to contribute to quality development in school clusters by building leadership and change management competences of their school management teams.

Focus: Inclusive education

Example: INCLUSIVE EDUCATION IN THE ODESSA REGION

The “New Ukrainian School” provides for inclusive education and individualized educational pathways in a new educational environment. The project focuses on the interface between the newly established Inclusive Resource Centres (IRC) and the schools and develops the competencies of the Academy for Lifelong Learning Odessa to offer the necessary professional development measures for teachers, head teachers and IRC staff.
